Duke

Experience the music.

Duke Stand Loudspeaker is a two way design developed with a new ceramic bass/midrange unit with extreme performance. The perfect partner to this unit is the " " ceramic tweeter witch extends the frequency range up to 40 000 Hz. The Duke Stand Loudspeaker sonic performance is rich, smooth and pleasant but with no loss of fine details, resolution and dynamics. Duke goes down to 39 Hz and it is easy to place in the listening room with the attractive Duke Stands in black satin/anodized aluminium finish. Duke Stand Loudspeaker is available in Walnut, Cherry and Maple. The Duke Stand Loudspeaker is splendid of its own but if it's combined with Ellington Bass Unit.

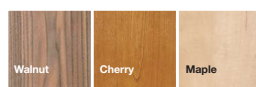

Technical specifications

Frequency range	39-40 000 Hz ±3dB
Power rating	150 W
Sensitivity	87 dB/w/m
Impedance	8 ohm (5.8 ohms min)
Type	Ported system, port resonance 44 Hz
