# Getz

Listen to The Sound

## Listen to the sound

The Getz completes the Heritage series from Marten.

The Getz not only incorporates unique ceramic drivers, but features a newly-developed, custom-made aluminium passive radiator. The passive radiator contributes to a more even and better controlled bass, and creates a realistic, full-bodied sonic performance.

The other Getz drivers employ ceramic membranes, which have the hardness of sapphire. Ceramic drivers have extremely high cone rigidity and hardness. The Getz produces distortion-free sound that is exceptionally detailed and transparent, with a large, attractive soundstage.

The relationship of the Getz relationship to Marten's Bird is obvious, both in its appearance and its virtuous musicality.

### Features

A newly-developed, custom-made, passive radiator.

Refined, high-quality crossover with components that include copper-foil coils and silver-in-oil capacitors.

The Getz can easily be integrated into your living environment, as it is not overly sensitive to placement. The front-firing passive radiator makes it possible to place it near the back wall if necessary.

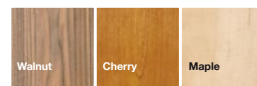

The midrange drivers have resonance damping and laser-drilled holes in the ceramic cone. This simplifies the crossover and provides even lower distortion in the crucial midrange.

The new Getz cabinet is optimised in both appearance and acoustic design, with non-parallel sides, heavy bracing, and specially-selected 23mm veneered MDF that make it virtually resonance free.

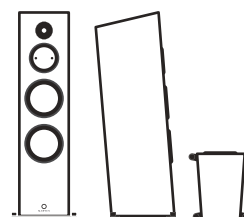

The Getz is available in an exclusive piano lacquer finish, in walnut, cherry, maple, or black.

### Design finishes

#### Piano lacquer woods

#### Piano lacquer colours

### Technical specifications

<b>Frequency range</b>	30-40000 Hz +-3dB
<b>Power rating</b>	250 W
<b>Sensitivity</b>	87 dB / 2.83V
<b>Impedance</b>	6 ohm (4.0 Ohm min)
<b>Type</b>	3-way passive radiator
<b>Drive units</b>	9" ceramic, 9" aluminium (passive), 7" ceramic, 1" ceramic
<b>Crossover frequency</b>	Second order: 400 & 2900 Hz
<b>Terminals</b>	WTB, Bi-wiring
<b>Internal wiring</b>	Jorma Design
<b>Cabinet</b>	23 mm:s veneered MDF
<b>Stands</b>	Steel stands with Clearlight Audio cones
<b>Dimensions (WxHxD)</b>	250 x 1160 x 350 mm 9.8 x 45.7 x 13.8"
<b>Net weight</b>	35 Kg (73 lbs)
<b>Finishes</b>	Piano lacquer Walnut, Cherry, Maple or Black

**Made in Sweden**
