MADE IN SWEDEN

# DJANGO L

The Django L is the smaller version of last year's hugely successful Django XL. But it's no little brother. With power and performance to spare, it punches well above its weight. Its versatility outcores any speaker in its class. And the sleek, fresh design means it looks as good as it sounds.

Two way, with specially designed bass units from Norwegian SEAS and a ceramic tweeter from German Accuton, the Django L is a real Marten speaker. Giving you the priceless sound reproduction you'd expect – at a price you might not.

DJANGO  
series
